RE: Formation of Eurofins NTD Genetics by Merger of NTD & EGL Genetics

Dear Valued Healthcare Partner,

We are extremely pleased to announce that, effective January 1, 2021, NTD and EGL Genetics have merged to form Eurofins NTD Genetics (Eurofins NTD, LLC), the largest US-based genetic testing provider within Eurofins Scientific, a global leader in bioanalytical and genomic testing. The combined entity will continue to maintain two CAP-accredited laboratories, based in the New York and Atlanta metropolitan areas, as a national provider in-network with most major insurance plans including United Healthcare, Aetna, and Anthem.

NTD Genetics is proud to feature a menu of both routine and specialty tests for maternal & fetal health and pediatric rare disease genetics, prioritizing patient access, choice, and affordability with highlights including:

- Non-invasive prenatal testing (NIPT) for trisomy, aneuploidy, microdeletion, and sex determination
- 1st and 2nd trimester biochemical testing for trisomy, neural tube defects, and preeclampsia
- Inherited disease and oncology carrier screening (e.g. cystic fibrosis, SMA, Fragile X, BRCA)
- 76-gene cholestasis sequencing with copy-number variation (CNV) and deletion/duplication panels
- Specialty biochemical and genetic lysosomal storage disorder testing (e.g. Fabry, Gaucher, Pompe)
- Growth disorder and hypotonia diagnostic testing (e.g. Russell-Silver, Beckwith-Wiedemann, UPD14)
- Comprehensive disorder testing (e.g. exome sequencing, microarray) and variant confirmation

In addition to serving our providers and patients, NTD Genetics serves the biopharma and research community with customized testing solutions across a wide variety of technologies. Our expertise stems from decades of clinical leadership, a legacy that will only be exceeded by the innovations currently in development that we will be unveiling in 2021 as we continue to prioritize access, choice, and affordability.

In the truest embodiment of Eurofins' motto "Testing For Life", Eurofins NTD Genetics is proud to offer you, now and in the future, diagnostic excellence for mother and child from pregnancy planning, conception & gestation, and infancy. We thank you for your ongoing loyalty and look forward to continuing to serve you.

With warmest regards,

Nick Mitilenes
President
